PRESS RELEASE

a global vision for software testing

TCL Group: Undergraduate Scholarships

As part of TCL's dedication to the future of the software testing industry, we are pleased to be working with world-leading academic institutions again this year.

TCL will be granting scholarships to three Computer Science students from each of the following: The University of Exeter, University College London and Boston University in the US.

Scholarship winners will also get the opportunity to apply for an international internship programme, which will take place over summer 2010.

Stewart Noakes, Chairman and Co-founder said "*The scholarship programme has helped some incredible people; who I hope will go on to make valuable contributions to software development and testing. It is a great pleasure to support the programme, and to work with such talent, and world leading organisations like Exeter, UCL and Boston Universities."*

2009 Interns: (From left to right) Abolade Babawale, Dan Geater, Chris Livett and Anand Rathi

"Working with TCL as an intern has been great, I have learnt so much and got real-world experience from the best in the business"
Chris Livett, Intern

To be considered for a scholarship, an essay (maximum 800 words) on one of the following topics must be submitted. Students must also submit their transcripts.

- The future of software testing.
- Why can't developers test?
- The value of software testing.
- What makes an expert tester?
- Why does software never work first time?
- How will crowdsourcing change the software testing industry in the next five years?

If you would like to apply for a TCL scholarship, please submit your essay and transcript by 1st November 2009 to:

Victoria.Sheppard@tcl-global.com

TCL is an independent Software Testing Consultancy, started at the beginning of 2000, with offices in the UK in London, Bristol and Exeter; in Burlington, Massachusetts in the US; and in Bangalore in India.
